Dear Mr. Dunn:

The Cafaro Company recently completed a :30 television spot on film for our hometown center, Eastwood Mall. This project was produced by DeVo Productions under the direction of Nick Delfino.

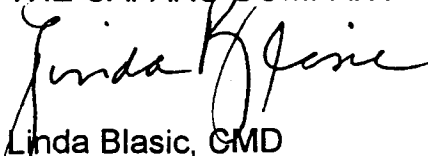

Acting as the lead contact here at the Cafaro Company, I found it a pleasure to work with Nick and the DeVo crew. The entire process, pre-production to post, went smoothly with all details handled efficiently. As a director and advertising professional, Nick is creative, resourceful and thorough. He stayed actively involved in all facets of the production and brought other talented and skilled crew members to the project.

We are currently in the planning and strategic decision making stage for our next project together, another :30 film spot for our center in Erie, PA, the Millcreek Mall. Certainly the Cafaro Company's desire to work with Devo Productions on this next effort should speak well for their capabilities and expertise.

Please don't hesitate to contact me if I can provide any additional information.

Sincerely,

THE CAFARO COMPANY
